Innovations 2021

[hansgrohe.com](https://www.hansgrohe.com)

Meet the beauty of water

The new meaning of 'home'

Over the past year, many of us have recognised what has actually always been true: the importance of our home in providing a place to feel great and relax. Where everything is as you need; beautifully designed and of the highest quality, with rooms that you want – rather than have – to spend time in. For us, the past year has confirmed we're providing something of the utmost importance. We are and will remain by your side at all times, both digitally and in real life.

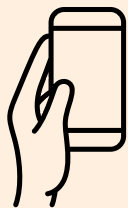

Innovations with you in mind

This year, discover a range of new products to take your enjoyment of water to another level. Under our guiding principles of innovation, quality, design and responsibility, we have developed exciting and inspiring solutions for your bathroom and kitchen. From cutting-edge products like Pulsify, the innovative PowderRain shower spray or Finoris, giving you a completely new feeling of space in the bathroom, we strive to offer solutions for the needs of everyone. Other exciting innovations for 2021 include the multi-sensory RainTunes, the fun Jocolino children's shower, the flexible WallStoris storage system and the RainDrain shower drains.

Designed for people

hansgrohe is a brand for life. Whether you are relaxing, seeking refreshment or a moment of calm, every product we produce is developed by experts in the Black Forest to make your everyday life easier – and enrich it with special moments. Our products are not one-offs but comprehensive solutions, designed to become a part of our customers' lives. After all, that's what defines our brand: our focus on people.

Pulsify

Welcome back me

A unique shower experience for every bathroom size

Get in the shower and just switch off. Dive into another world. Start the day fresh in the morning and relax after the stresses of everyday life. Pulsify delivers these priceless moments - no matter what size bathroom you have. Even in the smallest of spaces, you can experience an entirely new level of relaxation for body and mind. Enjoy maximum freedom of movement, in a thoughtfully-designed space.

With Pulsify you can thrive. Structurally compact, it can be integrated into any bathroom, while you can choose from a variety of elements and surfaces to suit your style. With timeless design, the highest quality and intelligently integrated shelves, Pulsify will be a long-lasting source of pleasure - and it sets standards in terms of sustainability and safety. By choosing a variant with EcoSmart technology, you will even use up to 60% less water than with conventional products, without compromising your showering experience.

Intelligently integrated shelves perfect your showering experience.

Combine Pulsify with the innovative flexible storage system WallStoris.

PowderRain - a unique relaxation experience, thanks to the finest micro-droplets of water.

Feel good. With Pulsify and PowderRain you will experience wellbeing on another level, relaxing totally in both mind and body. PowderRain transforms water into a gentle blanket of countless microdrops that dance on your skin, leaving you feeling lighter, freer and revitalised.

Thanks to our innovative Select technology, you can easily change the spray type you want during your shower, for a totally relaxing shower experience.

Customisation options makes this system as versatile as you.

With Pulsify, your bathroom becomes a space you can fully unwind. Choosing from the large range with three surface finishes of chrome, matt black or matt white, you can design a totally individual look to suit your style. There are also options for surface or flush mounted installations, for items such as Showerpipes.

Timeless and functional design - with built-in durability.

With Pulsify you're investing in design, sustainability and safety. We want you to enjoy Pulsify for a long time - and feel good after every shower. We ensure this with its timeless design that fits into every bathroom, as well as our proven hansgrohe quality. The result is pleasure for years to come.

Showering with a good conscience - thanks to our EcoSmart technology.

Choose our EcoSmart technology and save water and energy - without having to forego your showering pleasure. EcoSmart reduces the flow and thus makes a sustainable contribution to savings, making Pulsify a wise investment. Enjoy our most valuable resource - water - in the most beautiful and responsible way.

Our innovations ensure that Pulsify is not only fun, but also extremely practical. With QuickClean, cleaning has never been easier. Remove limescale quickly and easily by rubbing the flexible silicone nozzles with your finger. Meanwhile, the Pulsify overhead shower adapts to both your bathroom and your body. Its angle adjustment of 10-30° means complete comfort and flexibility while you're showering.

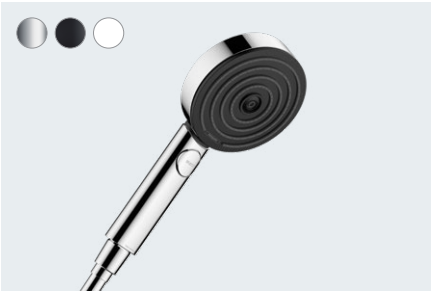

Pulsify at a glance:

- Unique shower experience thanks to PowderRain
- Modern, flat design suitable for every bathroom size
- Available in chrome, matt black and matt white
- Easy installation
- Choose between variants for surface or flush mounting
- With the innovative Select control you can easily switch between the spray types
- Actively regulate water consumption with the volume control
- EcoSmart variants mean you use up to 60% less water
- Integrated shelves offer space for products and shower accessories

RainTunes

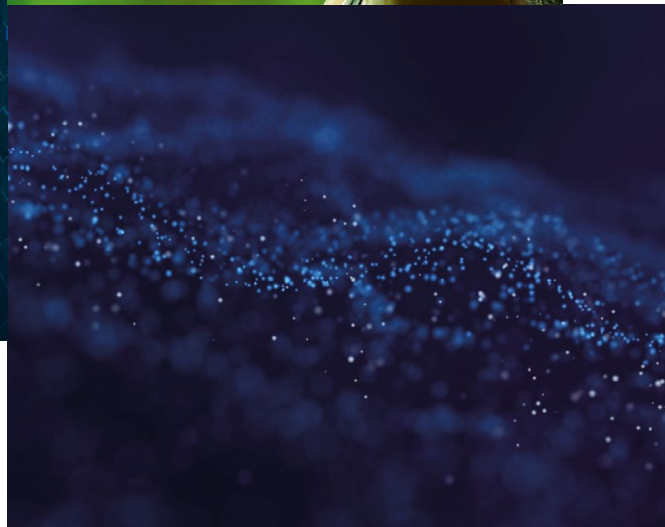

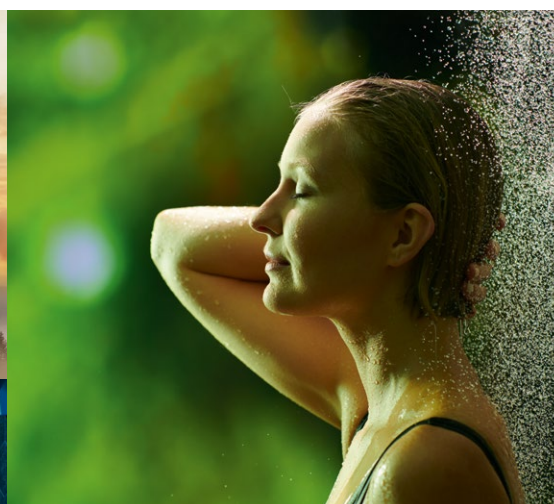

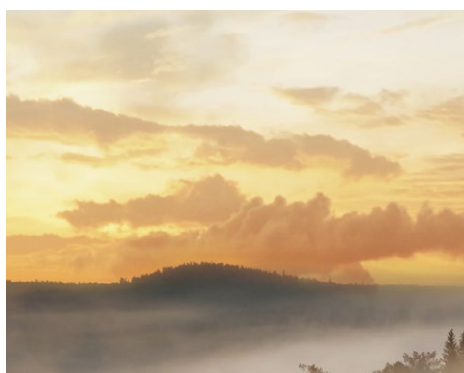

A shower experience
for all senses

Turn your bathroom into a space of sensations and emotions

The bathroom is a place of retreat. Somewhere to slow down, let your mind wander and to recover from the hectic pace of everyday life. We have found a way to make these moments even more rewarding, with the help of the latest technology.

With RainTunes, we combine water with sound, light, imagery and fragrance to create a unique showering experience. Choose one of seven different shower programmes depending on your mood and the day's activity, to deliver the perfect shower for you.

You can intuitively control RainTunes from your smartphone using the hansgrohe home app. Choose the right pampering programme for your mood, and enjoy a shower experience created by experts, with specially composed soundscapes, choreographed water rhythms and coordinated picture sequences on the screen. Smart LED lights create tailored lighting throughout your bathroom. We are constantly optimising RainTunes, which means we will continue to pamper you in new and unique ways, so you can make the most of every shower.

We combine water with sound, light, imagery and fragrance into one holistic experience.

Good Morning

A gentle sunrise, invigorating sound and changing spray types readies you for a new day.

Recovery

After exercising, enjoy a regenerating program of varying spray intensities, designed to rejuvenate you.

Vitality

Experience a strengthening of your circulation, metabolism and nervous system over the long-term, thanks to stimulating and contrasting shower sprays.

Relaxation

A supremely calming programme using ambient sounds and warm water, to help you wash away any stress.

Beauty

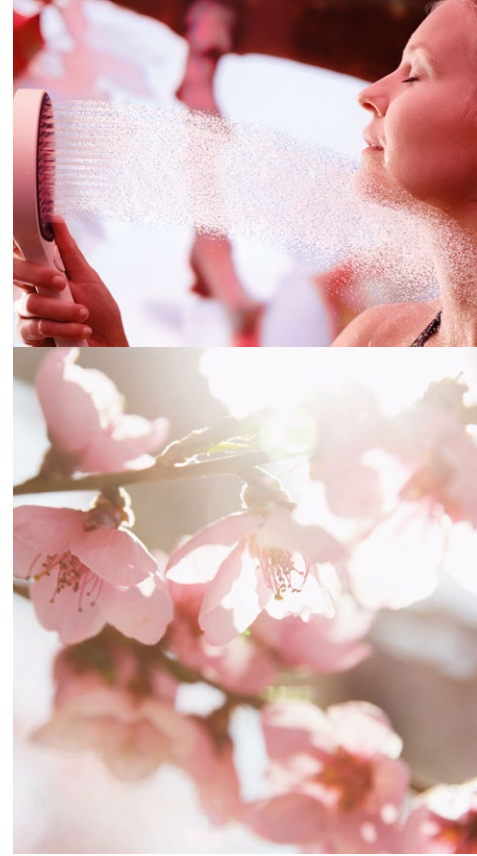

Your ultimate pampering programme using warm rain, a gentle facial shower and a stimulating head massage.

Nature

Embark on a journey through the Black Forest with the sounds of nature, the scent of pine, gentle imagery and comforting warm water droplets.

Good night

Slow down with soothing lighting, delicate aromas and a blanket of the most delicate water droplets on your skin.

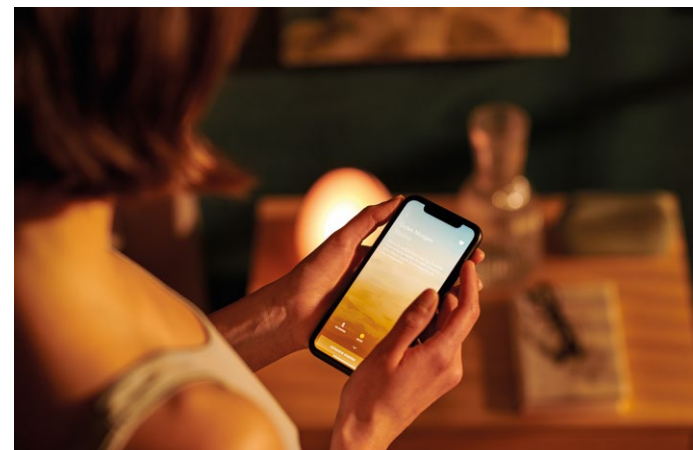

The hansgrohe home app - digitally select your water experience.

Choose one of the preset programmes depending on your mood and the time of day. Restart your wellness experience each day at the touch of a button, simply by using your smartphone.

RainScent - five sensual fragrance options.

Immerse yourself even further into your showering experience, with a RainScent shower tab. Choose your aroma from lavender, pomegranate, bergamot, silver fir or rosemary citrus, place the tab into the shower floor compartment. Now breathe deeply, as the essential oils slowly reveal themselves, wrapping around you and providing the ultimate shower.

RainButton – control, just where you want it.

For us, creating the perfect shower experience means tailoring every element to your needs. This includes something as simple as the position of the controls. RainButton is a new flexible and intuitive control system, allowing you to control the spray type, temperature and amount of water at the touch of a button. Best of all, it can be positioned wherever is most convenient for you.

The control unit and the central water system communicate via Bluetooth, which means for the first time, it's possible to separate operation from the water system itself. This creates a new freedom of design, allowing you to position the control wherever is most convenient for the way you use your space. The hansgrohe home app can even provide access to your preferred RainTunes programme via the Play button on the RainButton control.

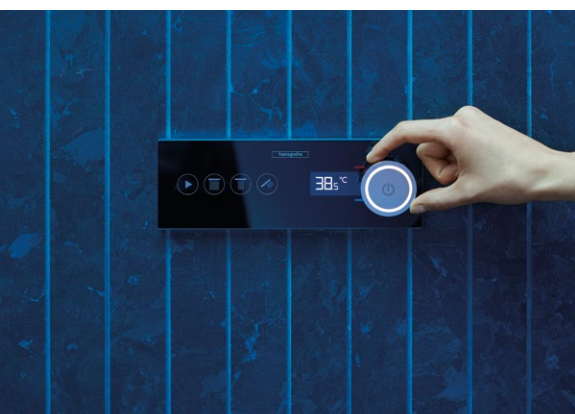

RainPad – sensational control.

With the digital RainPad, you can control every element of your shower from the central control panel. Individual spray types appear as illuminated icons on the glass surface, and you can adjust the temperature and spray strength using the rotary dial.

Thanks to the low installation height and the high-quality materials, the RainPad fits perfectly into the modern bathroom. It's simple to connect the RainPad to the RainTunes shower programmes, which then allows you to select your programme on the control. And with regular updates to the RainPad, it will provide you with an intuitive and relaxing shower experience far into the future.

RainTunes at a glance:

- Seven individual shower programmes, from Good Morning to Good Night
- Use the hansgrohe home app to select and start your preferred programme
- RainButton: Bluetooth control buttons that can be positioned anywhere
- RainPad: Central digital control panel for your shower
- RainScent: Shower tabs available in five different aromas, including lavender, silver fir and pomegranate
- RainButton requires Rainfinity Digital showers, while RainPad can be used in conjunction with any hansgrohe shower

Jocolino

Go wild for bath time

Bathe in the sound of your child's laughter

The daily bath time routine isn't always fun - for children or their parents - and it can be all too easy for the tears to flow, rather than the water. We've tackled that common problem, to transform that tricky bath time into a moment of pure joy for all the family.

The new Jocolino hand shower is designed in the shape of an animal, to delight and inspire your little one's imagination. You (or they!) can choose from a lion, crocodile or zebra - get ready to swap the tears for a fun and animal-packed bath time routine.

3 fun animal designs.
2 child-friendly spray types.
1 happy family.

Jocolino at a glance:

- Three different animal designs: lion, crocodile and zebra
- Moving eyes, for even more bath time fun
- Ergonomic handle, suitable for small hands
- Two spray types: Rain and MonoRain
- With the optional quick coupling, you can easily switch between two hand showers

Vivenis

The wonder's in the water

Water like you've never felt before

Feeling a waterfall cascade through your fingers in an experience like no other. Being at one with nature, stumbling across this ever-flowing source of power, our first instinct is always to hold our hand out to touch the tumbling water. What if you could bring a little of that wonder into your own home, making even washing your hands a small moment of happiness and wellbeing?

Vivenis makes this moment. It is so much more than a tap. Its timelessly elegant design and the broad water jet makes it a veritable pleasure in the bathroom. But the actual magic begins as soon as you open the handle and the water touches your hands. Our innovative AirPower technology enriches the water with air to transform the jet into a velvety soft waterfall on your skin.

Vivenis with EcoSmart not only delivers moments of wellness throughout your day, it also reduces water consumption.

A velvety soft
waterfall, right in
your bathroom.

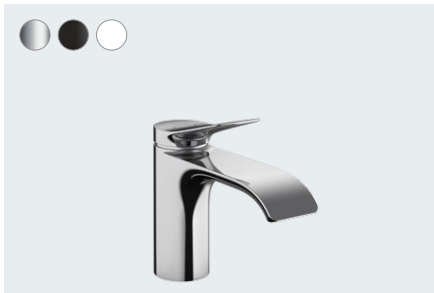

Vivenis at a glance:

- The AirPower technology and the wide waterfall flow creates a brand new wellness experience
- The water is enriched with air, to create a particularly soft and light spray
- The elegant shape of the tap complements the flow of water
- Ergonomic operation
- Available in three finishes to match any bathroom: chrome, matt black and matt white

Finoris

Your routine reimagined

A tap that's as flexible as you

No other room in the house fulfils as many different needs as the bathroom. It's sometimes a place of morning chaos, at others a place of retreat. And the more people in the household, the greater the number of requirements it needs to deliver on.

Finoris meets these requirements thanks to minimalist design and maximum flexibility. In one simple design, the sink meets the needs of all its users. And one hidden, groundbreaking innovation means that it can be used for many different purposes, from washing your hair, bathing a baby or even hand-washing your favourite sweater.

Discover a hidden innovation.

The pull-out tap, which is subtly integrated into the slim design, gently glides back into its original position after each use ready for the next time you need it. You can tailor your experience in four ways: the amount of water, the water temperature, the spray type and the flexible spout. And with three finishes to choose from, Finoris blends perfectly with any bathroom design.

The tried-and-tested hansgrohe ComfortZone technology offers several benefits all at once – plenty of elbow room at the wash basin, maximum usability and less splashing. It shows you how much space you have between the tap spout and the wash basin, as the number of millimetres stated in the name of our taps indicates the ComfortZone. This enables you to immediately identify which tap height would best suit your requirements – and your wash basin. When Finoris and ComfortZone join forces, they transform the bathroom into a stress-free, comfortable place to be, even in the most dynamic domestic settings.

Complete convenience and freedom of movement for every sink, matched with the right tap. Thanks to ComfortZone.

Finoris at a glance:

- An innovative solution for all routine activities around the sink
- A long pull-out spray is fully integrated into the basin tap for ultimate flexibility. It smoothly glides back into its original position once you're done
- Choose between laminar spray or PowderRain at the touch of a button
- ComfortZone technology provides plenty of space, maximum ease of use and fewer water splashes at the sink
- Slim, geometric design provides a modern bathroom look and easy handling
- Available in three finishes: chrome, matt black and matt white
- An entire design line that you can use throughout your bathroom

WallStoris

The wall is yours

Making individuality easier than ever before

The tidier your home, the more comfortable you will feel - "tidy space, tidy mind" as they say. There's no doubt that the orderly arrangement of your belongings has a calming effect, so that you can focus purely on you any time you use your bathroom.

WallStoris is the flexible storage system that creates this harmony. The principle is very simple, and yet endlessly adaptable: a bar with modular accessories and an infinite number of possible combinations. Simply decide on the bar length and set up the storage space according to your own needs. Whether you choose shelves, racks, hooks or even baskets: you can put the modules together in up to 40,000 different ways. Get ready to say goodbye to the chaos!

With almost infinite combinations, your bathroom can be as unique as your own needs.

The design of WallStoris works perfectly with Pulsify, as well as many other product lines from hansgrohe.

Installation is simple
- just fix it to the
wall.

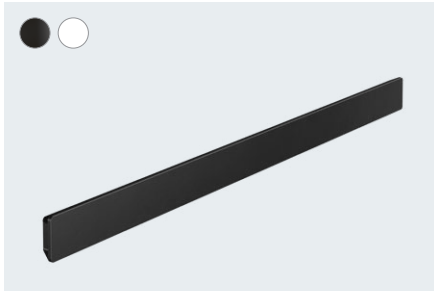

WallStoris at a glance:

- A flexible, modern storage system with almost infinite combinations
- Perfect for wet environments: thanks to the integrated drain no water collects in the containers or racks
- High-quality bars in two lengths (50, 70 cm) and two surfaces (matt black and matt white)
- Choose from numerous different racks, hooks, baskets, shelves or plant pots
- WallStoris works with many hansgrohe product lines, such as Pulsify
- Easy assembly: either with screws or simply stuck to the wall, so that the bar can be removed later without leaving any residue.

AddStoris

Complete your bathroom

Keeping everything within reach

You're probably familiar with the problem: everything in your bathroom has a home, neatly stowed away - except those things you use several times a day. Things like your hand soap, your toothbrush and toothpaste. So how do you keep these things handy, without disturbing the overall picture of harmony in your bathroom retreat?

Our answer? AddStoris. It keeps those items you use frequently, such as soap dispensers or water mugs, within reach while ensuring they stay discreet. With its angular minimalist design, this line of accessories goes perfectly with the other Hansgrohe fittings in your bathroom.

The stylish addition to your Hansgrohe bathroom. Available in six different finishes.

From soap dispensers to towel rail – a whole range built for your needs.

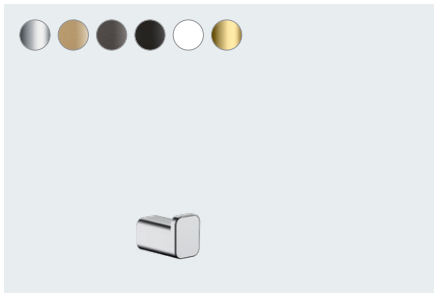

AddStoris at a glance:

XtraStoris

Dream storage for a
dream bathroom

Design that makes itself useful

You chose your bathroom with care, placing a lot of value on the design and quality of your selection. And with such time being spent on that, you know the importance of maintaining its appearance with regular cleaning and maintenance. But where to store those essential cleaning products without ruining the overall look?

In order to avoid the practical everyday essentials spoiling the overall ambience of your bathroom, we developed XtraStoris. Finally, a built-in wall storage solution that looks as good as your bathroom – while also giving you more space to move around. Choosing between the different colours and dimensions, you'll be able to find the ideal addition to your existing shower. With XtraStoris, the storage space problem becomes an attractive solution, bringing a welcome addition to your space for years to come.

Enjoy complete freedom of movement in the bathroom for maximum pleasure.

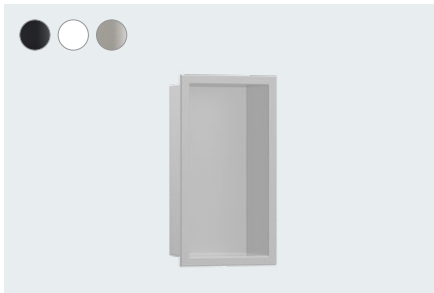

XtraStoris at a glance:

- Take your bathroom design to the next level with this integrated storage solution
- Tailor it to the smallest detail, for your own storage needs
- This space-saving storage solution is available in numerous finishes and dimensions
- The waterproof basic set provides long-lasting safety in your bathroom

RainDrain

A designer drain solution

Starts with the basics, and then let your imagination run free.

A holistic design language in your shower enhances the space, and your well-being as a result. That's one reason why thoughtfully designed shower channels are becoming increasingly popular. RainDrain is the perfect accent to any shower, whether its finished in natural stone, stainless steel or individually tiled. And not only does it look great, it provides long-lasting functionality as well.

RainDrain suits every style of shower. We are particularly proud of the simple and straightforward installation, which doesn't depend on the shower's installation method. There is a set for all shower channels - simply choose from three different channels and the point of drainage, then trust in a well-fitted drain for many years to come.

A basic set for all shower channels.

Maximum functionality. The highest quality. RainDrain fits seamlessly into your shower.

RainDrain at a glance:

- Provides ultimate freedom of movement in your bathroom
- A space-saving design and variety of product dimensions means seamless integration into almost every bathroom
- Choose from several different finishes and configurations
- The drainage capacity is specially tailored to the performance of our hansgrohe shower systems
- Optional Dryphon technology, for minimal cleaning
- One basic set integrates with all hansgrohe shower channels
- Suitable for new buildings and renovations, thanks to two different water seal heights
- Can be used in all common installation scenarios
- Stays watertight, thanks to pre-installed sealing fleece

Pontos

Modern water management

For long-lasting enjoyment of water

Water is integral to creating a home. We use it all day, every day, from the moment we wake up to those last moments of winding down before bed. That is reason enough to ensure the long-lasting functionality of your home water system. Pontos is our innovative app solution to help you monitor and control your water, whether you're at home, work or even on holiday. As well as providing reassurance when everything is working perfectly it detects water damage at an early stage, by providing information on the amount of water, moisture or frost present in your system. With Pontos, you can maintain your home and avoid costly repairs.

Pontos is made up of two app-controlled parts: Pontos Scout and Pontos Base. Pontos Scout is positioned at various points on the floor to measure humidity and room temperature. It then warns you via an alarm on your smartphone about any risk of frost or leaking water.

Pontos Base is connected directly to your central water pipe, where it constantly monitors all pipes for irregularities in the water flow, which can be an indication of leaks. If damage is detected, Pontos Base automatically turns off the water supply and sends a message to let you know. Plus, it also provides valuable statistics about your water consumption and water hardness, so you can plan your personal water use accordingly.

Pontos protects what is most important to you - your home.

Pontos
Base water management system

Pontos
Scout water sensor

Pontos
Set water management system

Pontos Scout at a glance:

- Smart water sensors positioned at various points throughout the house
- Warns by push message if a leak is suspected or if the preset room temperature is exceeded
- Reports changes in humidity in rooms – another sign of possible leaks

Pontos Base at a glance:

- Constantly monitors water pipes for leaks
- Automatically turns off the water supply in the event of damage and informs you via push message
- Can be turned back on via your smartphone or on the device
- Provides statistics on water consumption
- Measures water hardness
- Works even in the event of a power failure thanks to the integrated battery

Simply scan the code to discover Pontos.

Make water your secret ingredient

We understand that you want your kitchen to be full of happy memories, where you prepare food to be shared with family and friends. That's why we have dedicated our time and creativity to designing innovations to help you do that.

Aquno Select M81

Making water the star of the show

Runs effortlessly, so your workflow runs smoothly

A good chef knows: its the highest quality ingredients that make a perfect meal. We believe that begins right at the beginning with food preparation. That's why we have developed Aquno Select M81, for gentle food cleaning to fully support you in the kitchen.

The unique design of the Aquno Select M81 kitchen tap means water flows in a brand new way, creating a more efficient kitchen workspace. The flat SatinFlow stream gently washes your food, doesn't splash and uses less water when you're washing your hands. Together with the tailor-made sieve, it perfects your kitchen workflow.

SatinFlow spray – gentle food prep begins with a 20 °C shower.

More information and the assortment can be found at hansgrohe.com/AqunoSelectM81

Explanations of the surfaces, technologies and jet types can be found at the end of the brochure.

For the perfect cooking experience.

Aquno Select M81 makes all of your work at the sink easier. Three different spray types means this is a versatile kitchen all-rounder. That means you can focus on the cooking, while the Aquno Select M81 acts as your ideal kitchen assistant.

Aquno Select M81 at a glance:

- The multifunctional sieve is tailored to the SatinFlow spray, so you can wash and dry food hygienically, without it coming into contact with the sink. Your hands also remain free, so you can get on with the next recipe step.
- In combination with the innovative sBox, you can extend your working space by up to 76 cm
- With Select technology, you can easily switch between the spray types using your elbows or the back of your hand – keeping your hands free and the kitchen tap clean.
- Swivel range adjustable in three steps to 60°, 110° or 150°
- Available in three finishes: chrome, matt black and stainless steel

Simply scan the code to discover the Aquno Select M81.

Talis M54

Design and functionality
for your kitchen

Where minimalism meets detail

For many people, a perfect kitchen is the calling card of their home, with a design aesthetic that reflects that. Talis M54 is our flexible design solution for every kitchen shape. Fall in love with the slim tap body in chrome, stainless steel or matt black, and select the right fit for your kitchen – whether it is for a large island or compact space with wall units.

The Talis M54 with a round arch is the perfect choice for cooking islands with a sink. Its slim silhouette blends seamlessly into the body, becoming an eye-catching addition to the modern eat-in kitchen. You can choose between a pull-out tap and sBox, for even more flexible use, or a swivelling tap. The swivel outlet has an adjustable stop, which prevents it from being accidentally unscrewed from the sink area.

The Talis M54 with a U-shaped tap is the perfect solution for kitchens with or without a wall cabinet above the sink. Thanks to the flexible U-shape and discretely integrated stream former, you can enjoy a unique and practical design solution.

Shapes to suit
all kitchens.

Innovations like sBox and ComfortZone create efficiency.

The innovative sBox keeps things neat in the kitchen. The hose slides cleanly, smoothly and quietly back into the sBox, which is inconspicuously installed under the sink. Whether your tap is tall, swivelling or with pull-out functionality, ComfortZone gives you more space and room to move. This solution suits all needs and all basins, and makes it easier to get things done in the kitchen.

For kitchens with wall cabinets above the sink, we have developed the Talis M54 with L-shape tap. This compact and ergonomic system makes ideal use of the space available. The option with the horizontally pull-out tap goes even further to maximise your efficiency in the kitchen, while a gradual adjustable swivel rotation can be adapted to your sink, to prevent it from swivelling too far. The sBox is also available to fit the L-shape design.

Talis M54 at a glance:

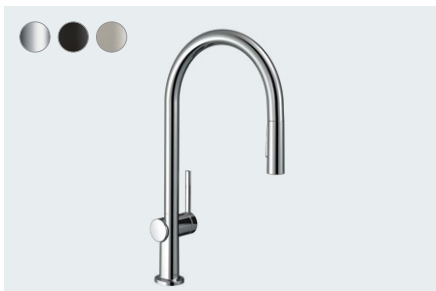

- Slim, minimalist design in three basic shapes and heights to fit every kitchen: as a round arch, L-shaped or U-shaped
- Available in three finishes: chrome, stainless steel and matt black
- The variants with pull-out outlet or pull-out tap are available with sBox
- Work flexibly and comfortably in the kitchen, thanks to hansgrohe innovations such as ComfortZone, MagFit and sBox

Spray modes

A unique shower experience thanks to the soft caress of micro droplets.

Intense jet of micro-fine droplets for sensational showering.

A strong massage spray that invigorates and soothes aching muscles.

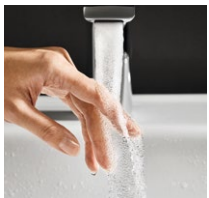

Focused jet for a soothing, feelgood shower.

Full shower rain, ideal for washing hair.

An intense jet of water that activates and wakes you up.

A wide water stream, which moistens gently the entire hand.

Crystal clear and economical, without added air. Ideal for quickly filling large containers, and preventing splashing.

Fuller, lighter and softer droplets from an aerated spray, thanks to AirPower technology.

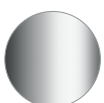

Economical and cleansing. Also perfect for fast spraying at the sink.

The soft, flat spray is splash-free, making it highly efficient at saving water.

Technologies

Simply regulates the water flow at the touch of a button: a convenient way to turn the shower on and off or switch between spray modes.

Reduces the flow rate to save water and energy. For long-lasting pleasure.

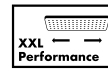

Combines water with a generous amount of air. For a soft, splashfree water spray and rich, full shower drops.

Wipe limescale deposits away easily by rubbing your finger over the flexible silicone nubs.

Easy and fast cleaning and maintenance of surfaces.

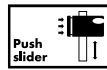

Distributes the water over the large spray face enveloping the whole body in drops of wellbeing.

With the adjustable shower head, the water jet can be adjusted individually.

Fast drainage of shower to reduce the dripping time.

With just one hand, the shower holder can be freely adjusted in height at the touch of a button. For a safe and comfortable shower experience.

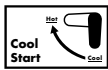

Easy water control: with the control dial the water flow can be adjusted easily.

Cools through the controlled flow of cold water to stop the product getting hot. For even safer showering.

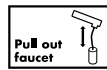

The bath spout can be neatly stored underneath the thermostat when not in use. A truly aesthetical solution for safety and mobility.

Cold water starts to flow when it is opened in the basic setting. You consume hot water only when you need it.

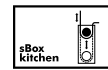

Defines the useable area between washstand and mixer. Something to suit every customer.

Highest flexibility by pull-out function.

Defines the height, side clearance and - with the pull-out function - the length of the space around the mixer.

The hose extends quietly and smoothly from the base cabinet by up to 76 cm.

High quality stainless steel. Durable and hygienic for all purposes.

Assembly possible both with included glue-kit and screws.

All accessories can be easily clicked onto the wall bar and removed from it.

Wall niche with tileable door for storing showering items discreetly.

Variable installation depth of finish set for an individual look.

Suitable for dry and solid wall installation.
