

A black and white photograph of a person's legs and feet, sitting and resting on the ground. The person is sitting with their legs crossed at the ankles, and their hands are resting on their knees. The lighting is soft, highlighting the contours of the legs and feet. The background is a plain, light-colored surface.

Functionality is beauty

Many people say that beauty is in the eye of the beholder. But we believe that true beauty is universal. Because when form meets function, we create products that are truly beautiful. Not just for the eye, but for all your senses and your whole body.

That is why we see quality and sustainability as purely issues of hygiene. As our timeless design idiom clearly shows. And so does the way that every little knob is designed to be intuitively understandable and a delight for your hand to touch. Innovation has always been equally important to us. It is what we have used to transform the bathroom from a place where you take care of your daily needs into the delightful space it is today.

This catalogue presents most of our beautiful and functional bathroom products. For even more products, manuals, instruction videos and spare parts, visit our website: gustavsberg.com And if you want to see precise prices and products in their physical form, we recommend calling in at one of our dealers

Finally, we would like to mention our bathroom planner. Use it to sketch out your own bathroom and check to see which products are the best match for your bathroom life.

We're turning 200!

Gustavsberg's first porcelain factory was founded in 1825. And today, a couple of centuries later, we're proud of everything we have achieved along the way. But we're far from done. We're looking forward excitedly to developing the fantastic bathrooms of the future.

Find out more about our long history, or discover Ducentic – our anniversary collection – on gustavsberg.com

Toilets and fixtures

Gustavsberg toilets are made of tightly vitrified sanitary porcelain, which is the most hygienic and durable material of all for bathroom porcelain. Our comprehensive range comprises both wall- and floor-mounted models to accommodate all wishes and needs, as well as toilets for installing in corners and small spaces. We also stock the widest range of Hygienic Flush models on the market – possibly the most hygienic type of toilet in the world.

TO THINK OF

Which model suits you best? Do you want the water trap concealed or visible? Do you prefer wall or floor-mounting? With our Triomont system you can easily install a wall hung toilet even if your current model is floor standing. Neat, comfortable and hygienic. If your home is to have two toilets, why not choose different seat heights?

Nautic wall hung toilet

HYGIENIC FLUSH

Smarter flushing for improved hygiene and easier cleaning. The innovative design with open rim and smooth surfaces eliminates all potential dirt traps. Hygienic Flush minimises the need to use strong cleaning agents.

SUPRAFX

The patented suprafix system simplifies installation of your wall-mounted toilet and cuts installation time. Built-in wall fitting for invisible installation of wall-mounted toilets. Neater design, free from dirt traps, means improved hygiene and simpler cleaning.

CERAMICPLUS = C+

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it! – When cleaning.

NO ROOM FOR DIRT

On toilets with porcelain covers, the "seam" between the seating ring and the cover has been moved up. A soft curve in the porcelain simplifies cleaning and prevents the build-up of dirt. The foot of the toilet is smooth to facilitate cleaning and improve hygiene.

QUICK RELEASE

With quick-release functionality, you can remove the toilet seat from the bowl easily and without tools. The seat and toilet can then be cleaned separately, which is both simpler and more hygienic.

QUIET AND DRY

The fully encompassing porcelain cistern conceals a separate inner tank. This reduces noise and counteracts the build-up of condensation on the cistern, helping prevent the accumulation of dust.

SOFT CLOSE

Hard, solid toilet seats have previously been associated with loud noises when they are lowered. Soft close functionality has solved this problem through the introduction of a damper that is built into the seat to ensure that it can be lowered gently and quietly. The damper has no direct contact with the porcelain, which facilitates cleaning and makes the seat more hygienic.

SENSOR-CONTROLLED FLUSH

A touch-free flush function means improved hygiene. Using an app, the function can be set to flush automatically when the user walks away, or to flush at hygienic intervals if the toilet is used infrequently. Touch-free is a smart solution for all users, both at home and in public environments.

Nautic toilet

Estetic kitchen sink mixer Duo sensor

Bathroom sinks

A good washbasin must be functional, easy to clean and hard-wearing – but also neat and attractive. Only porcelain of the highest quality – as used in washbasins from Gustavsberg – can meet all these requirements. Big bathroom? Small bathroom? Corner, elongated surfaces or tight space? No matter what your bathroom looks like, we can almost guarantee that you will find a Gustavsberg washbasin to match it. Don't forget to check out our washstands with full-cover washbasins, which you will find under our furniture collection. One of these may well be an even better solution for your bathroom.

THINGS TO THINK ABOUT

Large bathrooms have plenty of room to install two generous washbasins so as to eliminate the problem of morning queues. Small bathrooms, however, sometimes barely have space for a single basin. In this case, what you need is a smaller model or one designed for positioning in a corner. Whatever your situation, you are sure to find the right washbasin at Gustavsberg. It may also be useful to consider laying out your bathroom with an eye to the future – when you may not be as mobile as you once were. Our broad collection also contains a number of washbasins for special needs.

Bathroom sinks 7G145301

FLEXIBLE BOLT SPACING

Flexible bolt spacing makes it possible to replace your existing wall-mounted washbasin with a new model, regardless of whether the distance between the bolts on the wall is 280 or 350 mm.

CERAMICPLUS = C+

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it! – When cleaning.

Nautic bathroom sink 5556 / Nautic washbasin mixer

Furniture

A bathroom needs to be functional and practical for everyone in the family. It should also serve as a tranquil oasis to which you can retire to recuperate after a demanding day. Both form and function should invite you in for a sweet and simple sojourn in the bathroom.

Bathroom furniture from Gustavsberg features timeless Scandinavian design and maintains a superior level of quality. All materials have been tested to ensure they can withstand the humid environment of a bathroom in use.

Our unique spare parts guarantee and complementary products ensure that you and our products can live a long life together.

THINGS TO THINK ABOUT

Gustavsberg furniture units are built to withstand the ravages of time, but don't forget that both your own life and your bathroom-related needs may change over the years. You will never regret investing in quality and smart storage solutions.

Graphic wall cabinet

SOFT CLOSE FURNITURE

If the acoustics in a bathroom can result in loud, sudden noises being particularly irritating. With soft-close functionality, cabinet doors and drawers close gently and quietly.

MOISTURE RESISTANT

The wood used in Gustavsberg bathroom furniture has been developed and tested for high durability in hot, humid bathroom environments. Smart design – e.g. the way our washbasins extend beyond the edge of our washbasins – protects the furniture from splashes and eliminates unnecessary moisture traps.

Ducentic bathroom cabinet / Ducentic washbasin mixer

Ducentic bathroom furniture

Ducentic is our anniversary collection, inspired by history but designed for the future. The range is distinguished by authentic, carefully selected materials such as oak, stone, steel, brass and, of course, the material that has always been the foundation of our business: the porcelain. The washbasin units come with a range of options as regards colour, width, leg adjustment, washbasin and matching accessories.

HANDLES AND KNOBS

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks.

Ducentic bathroom cabinet with washbasin and countertop

- Soft-closing drawer for quiet and soft closing
- Spacious drawer interior without the need for a cut-out for the water trap, creating more space for storage
- Same material and color on cabinet frame and drawers
- With space for external piping behind the drawers
- Manufactured in moisture resistant materials for humid environments
- Power outlet available as an option
- A variety of handle styles available as options
- Water trap and bottom valve are included in the package together with the washbasin/countertop
- Remember to order the correct number of mixer holes in the countertop or washbasin

Artic bathroom furniture

Artic's timeless design makes all bathrooms more beautiful. Although Artic is a cultured range, the cabinets can easily 'swallow' everything you need to keep in a bathroom. The units are based on standard dimensions and feature generous storage areas and surface space, as well as a host of smart details. Cabinet doors and frames of the same colour create a harmonious bathroom.

Washbasin colours

Glossy white

Matt white

Matt black

Handles and knobs

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks.

Artic bathroom cabinet with sink

- Installation system that makes it quick and easy to fit and adjust the units
- Soft-close drawers for soft and silent closing.
- Drawers with full-length pull-out provide a complete overview of all bits and bobs
- Available in different colours, with washbasins in glossy white, matt white or matt black
- Same material and colour on the cabinet frame, doors and drawers
- With space to run pipes behind the drawers
- Full-cover porcelain sink in slim design with generous surfaces
- Made of bathroom-class material for humid environments
- Simple, easy-to-clean water trap with pop-up function included
- Electrical socket and drawer lighting available as extras
- A variety of handles in different styles are available as extras
- Also available with handle-free push open function

Graphic bathroom furniture

Graphic features slightly daintier dimensions than most other bathroom furniture units. The design is based on the repetition of graphic shapes and dimensions; for example, three wall cabinets on top of each other are exactly the same height as a high cabinet, making it easy to furnish with Graphic. Moreover, wall cabinets and high cabinets are available in two depths to suit both large and small bathrooms. Cabinet doors and frames of the same colour create a harmonious bathroom.

Handles and knobs

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks.

Graphic bathroom cabinet with sink

- With a narrower depth to allow installation in even small bathrooms
- 'Secret compartment' for storing small items, and space for fitting an electrical socket
- The fold-out 'secret compartment' provides extra surface space when necessary and contains a knick-knack magnet
- Soft-close drawers for soft and silent closing
- Drawers with full-length pull-out for a complete overview of all your bits and bobs
- Space to run pipes behind the drawers
- Space-saving water trap with pop-up function included
- Available in four different colours
- Same material and colour on the cabinet frame, doors and drawers
- Material: Bathroom-class MDF adapted to humid environments
- Full-coverage porcelain washbasin
- Installation system that is quick and easy to fit on the wall and then adjust to the right position
- A variety of handles in different styles are available as extras
- Electrical socket and drawer insert available as extras

Graphic Base bathroom furniture

Our popular Graphic range with Graphic Base: a simpler design and a lower price – so that even more people can enjoy the benefits of a fully functional bathroom. While there are still all kinds of smart Graphic solutions to choose from, Graphic Base is only available in white, and only with a smooth door finish. This, in turn, simplifies the choice of mixers and other accessories. We want it to be simple and straightforward for everyone to put together a neat and functional bathroom.

Handles and knobs

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks.

Mirrors and lighting

Don't forget about the lighting when planning your bathroom. Weak light – or excessively bright light – will make the bathroom environment dull and sad. A good rule of thumb is to have at least one light for 'general lighting' and one directed light for 'face work'. Make sure to include mirrors in your calculations as well. It is quite usual to install a mirror above the washbasin, but if you have room, use mirrors as furnishing details – above a wall cabinet, for instance. Mirrors reflect light and increase the feeling of space in the room.

Mirror with lighting and black shelf

- All installation components supplied
- Light temperature 4000K
- IP44 classified
- Converter included
- Not dimmable

- Voltage: 220-240V
- The electrical installation must be performed by an authorised electrician
- The bottom shelf can be removed

Artic Pro furniture for laundry areas

With Artic Pro – Gustavsberg's range of products intended for the laundry area – you can make your laundry room or the laundry section of your bathroom as stylish as the rest of the bathroom.

A white side section with adjustable feet effectively conceals the washing machine or laundry basket from the side

Handles and knobs

All handles and knobs fit all our bathroom furniture units. Several of the knobs can also be mounted on walls as towel hooks.

Worktop sections in white or matt black are available to order in bespoke sizes to fit your laundry room precisely.

The wall cabinet – in white – is lightly taller than most other similar cabinets in order to facilitate storage.

Artic Pro wall cabinet

- Soft-close door
- Two movable wood shelves
- Ideal for use as a top cabinet in a laundry room
- Installation system for quick and easy fitting on the wall
- A variety of handles in different styles are available as extras
- Made of bathroom-class material for humid environments

Mixers

Gustavsberg has been a world leader in technology that saves water, energy and money since the 1970s. Today, we enjoy a deserved reputation for our environmentally certified and -declared products, and many of our mixers meet the requirements of various environmental assessment systems. Our plant in Vårgårda, Sweden, where we have been manufacturing mixers since 1920, is ISO certified in the fields of quality, the environment, energy and work environment.

Selecting a Gustavsberg mixer is a simple way to make a sustainable and confident choice. Not forgetting the fact that it will be an ornament to your bathroom.

THINGS TO THINK ABOUT

Spend a little time studying all the innovative functions of our mixers (see below). You are sure to pick up on some smart function or other that will facilitate or enrich your life in the bathroom. Do you have young children? Then choose a smart thermostatic mixer that regulates the water temperature and eliminates the risk of scalding.

COLD-START

Innovative technology ensures that the mixer supplies 100% cold water from its start position – facing forward – eliminating unnecessary use of hot water. Saves energy and money every time you use it.

SMART INSIDE

Thanks to the smart, replaceable components, the mixer can be upgraded in the future to add new, even smarter functions. This extends the mixer's lifetime and makes it even more sustainable.

ELECTRONIC SHUT-OFF VALVE

The smart self-closing valve increases water safety in your kitchen. Choose between three timing settings when the valve is open. A discreet led lamp (green, blue, yellow) communicates your selected time setting and turns off when the valve is closed.

EVEN TEMPERATURE

Thermostatic mixers feature built-in automatic scald protection and hot-water safety stop with type-approved non-return valves. This means that the mixers react quickly to the changes in temperature and pressure that can arise in the water flow, and even out the differences.

ADJUSTABLE FLOW

A smart eco-function that allows individual setting of the max flow of the mixer. This makes it simple for you to adjust the max flow, saving water and energy on your own terms. The function is fully adjustable for individual setting.

SAFE TOUCH

All thermostatic mixers from Gustavsberg are fitted with a safe touch function, which means they are designed to lead the hot water along the rear side of the mixer. This minimises the heat level on the front side of the thermostat, thus reducing the risk of burns.

LEAKAGE BREAKER

If water comes into contact with the detector, the valve closes immediately and the leakage breaker's red led lamp will flash. Even if the valve is closed, the led lamp flashes if there are leaks from other devices.

QUICK FIT

The mixer is installed using a quick fit nut that is simply pushed up to its stop position and then tightened. This smart solution simplifies installation and saves time, money and sore backs!

ECO-FLOW

The mixer features an effective, optimised flow of water. You therefore enjoy the same wonderful, functional experience as always, but using less water and energy. Kind on the environment – and on your wallet.

LEAD-FREE

The mixer is made of material whose total weight includes less than 0.1% Lead. As such, it is an eco-smart mixer that meets stringent requirements with reference to lead content. The mixer features a discreet laser marked symbol on its rear side to facilitate traceability.

DUAL FUNCTION

The mixer is operated as normal with a lever, but is also fully control-lable with the digital control. A led light communicates the selected temperature. For smarter use, flow and temperature can be program-med in three favourite settings that are activated via quick select.

Shower doors and walls

Choose between polished or matte black profiles in a wonderful design. High quality, durable materials and smart solutions make it simple to find precisely the right shower from Gustavsberg:

- Adjustable wall profiles guarantee a level shower, even if the bathroom walls are not entirely straight.
- Doors that can open outwards or inwards save valuable space.
- Almost all our showers are designed for right- or left-handed fitting.
- Unequal-sided dimension combinations offer an optimal shower solution for all bathrooms.
- Smart elevating brackets lift the doors when you open them.

THINGS TO THINK ABOUT

Installing a new shower wall requires preparation and planning. In many bathrooms, the shower corner has to fit in with a washbasin, a toilet and sometimes a washing machine as well. So measure your shower space carefully – to make sure there are no obstacles that prevent you opening the doors. If there are, a foldable shower door can often be the solution.

FOLDABLE DOORS ARE NOT REVERSIBLE

Our folding doors are the only models that are not reversible for right-/left-hand installation. They are, however, available with uneven dimensions to the right and to the left, so it is important to measure your shower space carefully. Make sure to measure from the front, i.e. where you step into the shower. Turn the page to see the combination options.

Round shower door

Square shower wall

REVERSIBLE

Shower doors, reversible for right/left-hand installation; they can open both outwards and inwards, which helps save precious space.

ELEVATING HINGE

The elevating hinge is a smart detail that lifts the shower walls 5 mm every time you open and close it. This minimises wear on both the floor and the shower doors. A practical function that provides a sense of authentic luxury.

Estetic Round roof shower / Square shower wall

Mounting options

Our shower walls and doors can be easily combined in different dimensions and thus adapted to the specific needs of each bathroom.

** For exact mm measurements and adjustability for each door model, see the range pages.*

Square folding doors for corner installation

- Folding door that takes up less space
- Ideal for use where space is at a premium – as the foldability often solves the problem
- Non-reversible doors; choose from the models designed for right- and left-hand installation, respectively
- Corner configuration dimensions "Left" x "Right" viewed from in front, i.e. on your way into the shower
- Pre-fitted door profiles for quick and easy installation
- Toughened safety glass, 6 mm
- Polished chrome profiles, with the door handle integrated into the glass
- Elevating hinges lift the door 5 mm when opened
- 20 mm adjustable wall profile, which ensures a level shower even if the walls are angled
- Opening angle: 180 degrees
- Unequal-sided dimension combinations possible
- Extra-width profile, 20 mm as an optional extra
- No floor profiles means a shower that is hygienic and easy to clean, but the solution does require an incline towards the floor drain
- Space for cutting holes for external pipework

Square folding doors for niche installation

- Folding door that takes up less space
- Ideal for use where space is at a premium – as the foldability often solves the problem
- Non-reversible doors; choose from the models designed for right- and left-hand installation, respectively
- Pre-fitted door profiles for quick and easy installation
- Toughened safety glass, 6 mm
- Polished chrome profiles, with the door handle integrated into the glass
- Elevating hinges lift the door 5 mm when opened
- 25 mm adjustable wall profile, which ensures a level shower even if the walls are angled
- Opening angle: 180 degrees
- Extra-width profile, 20 mm as an optional extra
- No floor profiles means a shower that is hygienic and easy to clean, but the solution does require an incline towards the floor drain
- Space for cutting holes for external pipework

Right or left?

NON-REVERSIBLE MODEL Our folding doors are the only shower models that are not reversible for right-/left-hand installation. However, they are available in unequal dimensions on the right and left-hand sides. Here, it is important to look at things from the correct side when measuring your shower space. Make sure to measure from the front, i.e. where you step into the shower. What combination possibilities you have to choose from, see page 96.

Square shower wall

- Reversible for right-/left-hand installation
- Tempered safety glass, 6 mm
- Polished chrome or matt black profile and wall brace
- Adjustable wall profile, 20 mm, for a straight shower even with angled walls
- The brace can also be used as a shower curtain rod
- Space to drill holes for externally routed pipes

Mixer and shower set

Match your new shower doors and walls with our wide range of shower mixers, shower sets and rain shower heads for a sweet, neat and functional set-up in your bathroom. No matter whether your main interest is in form, smart functions for saving water and energy or “simply” good quality, Gustavsberg lets you be price-, eco- and design-conscious at the same time.

Bathtubs

A hot bath lowers the pulse and boosts circulation in the body. Few things are as de-stressing and relaxing as slipping into a warm bath after a long, hectic – and possibly chilly – day. That's why you need to take care when choosing your tub, because the model you select will have to perform heroic deeds no other piece of furniture in your home can handle. What's most important: appearance, size or function? Or is everything equally important?

TO THINK OF

Big or small? Built-in or free-standing? In this catalogue you will find all kinds of standard bathtubs from Gustavsberg, take for example the combi-tubs, they are perfect for people who also use their bathtubs as their shower. These tubs have a flat section at the foot end, and the drain is positioned in the middle. The head end is gently angled and comfortable. Duo bathtubs are ideal for people who appreciate square design. Perfect for two people to bath together; features two sloping head.

Claw-foot bathtub 6368

GLAZEPLUS

Our bathtubs are available with an extra surface treatment called "glazeplus". This is a crystal-clear polymer film that protects the surface of your bathtub against dirt and limescale deposits – which facilitates cleaning and reduces the amount of detergent you need to use.

ANTI-SLIP

The bathtub is available with an anti-slip treatment where quartz sand has been burned into the enamel in an aesthetically neutral pattern. The surface counteracts the risk of slipping when entering or leaving the bathtub. Moreover, it is located at the foot end of the tub so that it does not affect the overall bathing experience.

SUPPORT HANDLES

You can order the bathtub with support handles on the rim to improve safety and ease of use.

PLUS5

An overflow outlet on the bathtub rim prevents the water from overflowing – but means a lower water level when you bathe. Gustavsberg has solved this problem with the smartest overflow outlet on the market: the plus5 system lets you raise the valve 5 cm with a simple movement – for deeper water and a more luxurious bath. An overflow outlet is an insurance requirement for fixed installation tubs in bathrooms without a floor drain.

Bathtub 1400 with full-front panel frame

Basin models for enamelled titanium steel bathtubs with front panel frames or feet

- Gustavsberg has many models and sizes, intended for installing with full- or half-front panels frames
- Our tubs are made of enamelled titanium steel of the highest quality
- The tubs are simple to install and easy to clean

- Handles and anti-slip bottom surface treatment available as options for a safer bath
- Glazeplus available as an option for fast, gentle cleaning

Placement anti-slip treatment

Basin models

Combi-tubs are perfect for people who also use their bathtubs as their shower. These tubs have a flat section at the foot end, and the drain is positioned in the middle. The head end is gently angled and comfortable.

Available in sizes 1500 x 700, 1570 x 700 and 1600 x 700 mm.

Bathtub models 1400 and 1700, and frontless tub 1571 feature a traditional basin shape. It has a depth of 420 mm, which means that it is comfortable and practical for both baths and showers.

Available in sizes 1400 x 700 and 1700 x 700 mm.

Frontless bathtub in size 1570 x 700 mm.

The Duo tub is designed for two people bathing at the same time with its two angled head ends and centred drain. Depth 420 mm.

Available in size 1600 x 700 mm.

Sitting tub model 1051 is designed for people who have a really small bathroom but who cannot do without a bath. Depth of the sitting area is 310 mm. Depth of the foot area is 420 mm.

Available in size 1050 x 650 mm.

The Claw-foot bathtub features an oval basin with two enclosing head ends and a centred drain. It has a depth of 420 mm.

Available in sizes 1580 x 680 and 1680 x 730 mm.

Bathtub 1300 features a traditional basin shape. It is comfortable and practical for both baths and showers, with a depth of 420 mm.

Available in size 1300 x 700 mm

Basin models for enamelled titanium steel bathtubs for tiling in

- Gustavsberg has a wide range of models and sizes intended for tiling in
- Our tubs are made of enamelled titanium steel of the highest quality
- Handles and anti-slip bottom surface treatment available as options for a safer bath

- Glazeplus available as an option for easy, eco-friendly cleaning

Placement anti-slip treatment

Basin models

		Tiling-in bathtubs 2940, 2941, 2942 and 2945 feature a traditional basin shape. This basin model is comfortable and practical for both baths and showers and is available in several sizes. Depth 420 mm. <i>Available in sizes 1400–1700 x 700 mm.</i>
		Tiling-in bathtubs Combi 3410 and 3411 are perfect for people who want to use their bathtub as a shower as well. The tub features a generous flat area in the foot end for showering and a centred drain. The head end is sloped for a very comfortable bath. Depth 420 mm. <i>Available in sizes 1600 x 700 and 1700 x 700 mm.</i>
		Tiling-in bathtubs, Duo 1220 and 1380 designed for two people bathing at the same time. It has two sloping head ends and a centred drain. Depth 420 mm. <i>Available in sizes 1600 x 700 and 1700 x 750.</i>
		Tiling-in bathtubs 6830 and 6831 Ideal for people who have plenty of space and appreciate square design. Perfect for two people to bath together; features two sloping head ends and a centred drain. Extra deep 450 mm. <i>Available in sizes 1800 x 800 and 1900 x 900 mm.</i>
		Tiling-in bathtubs, Offset 2570 and 2580 are available in left- and right-hand models. The bath is mainly designed for small bathrooms. Depth 420 mm. <i>Available in size 1570 x 700 mm.</i>

Accessories

		ART No.	Price EUR VAT 0%	EAN
		Handles Fits all bathtubs except sitting tub 1051 Only a single handle can be fitted to bathtub models 1603, 1607 and 1707. 2 handles <i>NB! The bathtub must be ordered featuring holes for handles.</i>

PLUS5

An overflow outlet on the bathtub rim prevents the water from overflowing – but means a lower water level when you bathe. Gustavsberg has solved this problem with the smartest overflow outlet on the market: the Plus5 system lets you raise the valve 5 cm with a simple movement – for deeper water and a more luxurious bath. An overflow outlet is an insurance requirement for fixed installation tubs in bathrooms without a floor drain.

5 CM MEANS A LOT

With overflow outlet Plus 5 you can have a deeper and more enjoyable bathing experience.

- Enamelled, titanium alloy sheet steel of the highest quality
- With hole for overflow outlet fitting
- Add a feet to complete the setup
- Choose an overflow outlet system: “standard” or “plus5” for a higher water level.
- All tubs feature a soundproofing mat on the underside to make your bath experience
- Handles and anti-slip bottom surface treatment available as options for a safer tub
- Glazeplus available as an option for easy and eco-friendly cleaning
- Rim-mounted mixer with filling via spout or overflow outlet as optional extra

Accessories

Our bathroom accessories are created to provide long, faithful service in a humid environment. The units follow the same refined, Scandinavian design idiom as other products from Gustavsberg, so you don't have to scrimp on quality, function or form when applying your own personal style to your bathroom. Take a little time to choose handles and knobs for your drawers and cabinets, as they play a significant role in the overall impression. To see our full range of handles and knobs, please turn to the furniture pages. Several of the knobs can also be used as towel hooks on walls.

TO THINK OF

Gustavsberg supplies a well thought-out selection of accessories. Always go for quality that lasts and design that you will enjoy for years and years. And make sure to seal all holes and cavities in bathroom walls thoroughly with silicone. Make sure not to damage the damp course in your bathroom. If you drill any holes, make sure to seal them tightly. Ask your reseller or fitter about the conditions that apply to your wall material. Plan carefully, and position your accessories with care.

Warranty conditions

Warranty conditions

Warranty for Gustavsberg's products is valid from the date of purchase and warranty covers defects in a product caused by defects in design, material or workmanship which occur:

- mixers - within five (5) years of purchase. The warranty applies to defects that cause the mixer to drip (leak) when the lever is in the closed position;
- toilet mechanisms, fixtures, seats, bathtubs, showers, showers walls/doors, accessories, outdoor faucets, fittings and furniture - within two (2) years of purchase;
- ceramics within five (5) years from purchase.

A receipt or invoice must be kept to verify the date of purchase of the product. Please carefully check the product at the point of purchase and follow the installation, operation and maintenance rules. Properly installed and maintained, the product ensures its longevity. Products with visible quality defects may not be mounted or installed. The warranty applies only to genuine Gustavsberg parts.

The warranty does not cover defects caused by incorrect or incomplete installation, maintenance, use, repair or any other external cause of the product after the product has been delivered. The warranty does not cover defects in water quality, normal wear and tear and depreciation. Gustavsberg is not responsible for the suitability of the products for the functions requested by the buyer.

Complaint notification

The Buyer (Customer) must report the defect immediately after it has occurred and must provide a receipt/invoice for the product showing the date of purchase.

Detailed complaint notification information is available on Gustavsberg web-sites:

Estonia <https://www.gustavsberg.com/ee/tugi/garantii-ja-reklamatsioonid/>

Latvia <https://www.gustavsberg.com/lv/palidziba/garantija-un-serviss/>

Lithuania <https://www.gustavsberg.com/lt/prieziurairaptarnavimas/garantis-aparnavimas/>

Before you start

1. Divide your bathroom into three functions: one for toilet visits, one for full-body care (i.e. baths and showers), and one for grooming – hands, teeth and face.
2. A large family may need a separate toilet. Is there some unutilised space in your home that would be suitable for a separate toilet? A toilet in the same room can be separated off by installing a partition wall.
3. Do you want to fit a bath, a shower – or both – in your bathroom? The younger family members will probably monopolise the shower – so is there space to separate it off?
4. Base your ideas on the actual size of your bathroom and ask yourself: where can I change nappies and where can I store the clean ones? Do I need to make space for the washing machine and tumble dryer?
5. Remember the lights! Weak light – or excessively bright light – will make the bathroom environment dull and sad. A good rule of thumb is to have at least one light for “general lighting” and one directed light for “face work”. Include mirrors in your considerations; they reflect light and increase the sense of space in the room.
6. If the drain installations need to be moved, are the ones for the toilet and washbasin to be installed in the wall or the floor? You can install wall-mounted porcelain even though the existing drain connections are in the floor.
7. Ventilation is important. Good ventilation – ideally combined with under-floor heating – helps the bathroom to dry quickly and reduces the risk of moisture damage.
8. The preparatory work beneath the floor and behind the walls – i.e. the work involving the pipes – is crucial in preventing moisture damage. We strongly recommend that you engage professionals for this work.
9. Light colours make the bathroom seem bigger. They also make dust, soap marks and water splashes less obvious.
10. It may be that you need to think about setting up your bathroom with an eye to the future – to the time when you may not be as mobile as you once were. It is often the small details that make the bathroom much safer: a support rail by the bathtub and a non-slip surface on the bath-tub floor, for example. Or perhaps a support rail by the WC or a raised WC seat. An extended lever on a standard mixer will also make things easier for people with reduced hand strength. Our range contains numerous products that have been adapted for both children and adults with special needs. For more information about these products, visit www.gustavsberg.com

THINK CAREFULLY BEFORE – YOUR BATHROOM IS TO LAST FOR YEARS

Consult a professional if you want to remodel your existing bathroom or build a new bathroom from scratch. It is best to reach agreement at the drawing board stage.

Welcome to gustavsberg.com

BE INSPIRED

Visit our website for additional inspiration and to find our complete range for the bathroom.

SUPPORT AND SERVICE

Our website also contains manuals and instruction videos, as well as tips and hints to help you use and care for your Gustavsberg products.
